Minneapolis 14, Minn.

Dear Burr:

Thank for your graphic comments on Janey. In due course of time she will probably ask for a more formal recommendation. While your letter of the 13th was personally rather satisfying, we shall probably need for our files a sample of the usual, rather worthless, type of report. I want to do as well by her financially as possible, and the sooner that type of red-tape can be taken care of, the better.

Sincerely,
